## Education

**B.S. Software Engineering** 2024–2027
California Polytechnic State University, San Luis Obispo GPA: 3.57/4.00

- Honors Program Student, Dean's List (x5), President's List Recipient, 3 Year Graduation Timeline
- Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Software Engineering I & II, Systems Programming, Financial Decision Making, Ethics, Science, and Tech

## Work Experience

**Redwire Production Engineering Intern • San Luis Obispo, CA** June 2026 - Present

- Using Claude Code AI to create a Kanban-style daily-use standup board module in Odoo that integrates existing purchase order data, replacing a manual whiteboard tracker used by 200+ individuals and eliminating redundant tracking workflows.
- Continued development of software tools for internal use, including automation scripts and GUIs, improving global corporate structure processes.
- Implementing a 5S organization system for the PE 3D printing station, including setup of Voron Tap and a custom TurtleBox MMS.
- Certified: Lean Six Sigma White Belt.

**Kontinua Foundation Content Writer • Remote** June 2025 - Present

- Developed and revised open-source STEM educational resources under Georgia Tech / MIT Professor Aaron Hillegass, including quizzes, textbook chapters, and supplementary assessments aligned with Bloom's Taxonomy.
- Built Python automation to validate objectives, detect prerequisite gaps and duplicates, generate draft quiz PDFs, and support deployment of 36 public workbook PDFs.
- Continued development of curriculum development skills, ensuring learning pathways are progressive and aligned with educational goals and underlying goal of open-source education.

**Code Ninjas Lead Sensei / Mentor • Chanhassen, MN** May 2021 - Sept 2024

## Projects and Leadership Experience

**Software Engineering I & II Project (CSC 308 & CSC 309)** [] Jan 2026 - Jun 2026
**Cal Poly Combat Robotics Club (CPCRC)** Jan 2025 - Mar 2026
**PolyUAS Drone Club** Sept 2024 - May 2025

## Skills

| | |
|---|---|
| **Programming** | Java, Python, LaTeX, Svelte, SQL, C, C++, Basic JS, React and MongoDB |
| **AI Tools** | Claude Code and Terminal AI, ChatGPT and Codex, GitHub Copilot |
| **PKM Software** | Obsidian, Git, Kanban Workflow, Visual Studio Code, GitHub |
| **CAD & 3D Printing** | Fusion 360, SolidWorks, 3D printing slicers (Bambu Studio, Orca, Prusa) |
